

Steve first became a ham in 1987 while working as a broadcast engineer in Massachusetts. He has worked for several different stations in the New England area including stations in Connecticut and Massachusetts. He also worked for NYNEX down on Wall Street doing specialized repair of the Data and communications circuits for the stock market.

In 1997 he met his current wife, Joy and started a new career as a commercial baker for her 3 donut shops in Massachusetts. They sold the businesses in 1999 and purchased a motor home and decided to go cross country. He then started buying old homes and renovating them while staying in the RV on the property. In 2015 he got into buying and re-habbing mobile home parks in the Southeast. He currently owns 2 parks in Florida and him and his wife travel 8 months a year in their RV. They usually spend the winters in Texas and Arizona and the summers at their lake home in Massachusetts.

Current station consists of a Flex 6400 with a Maestro. Amplifier is a Palstar LA-1k and a Palstar HF-Auto Tuner. He also is into Dstar and has a radio in the RV along with a Kenwood TH-D74 HT.
